DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, it is not clear what the purpose of the electrode is or how the restoration takes place. No connection has been made between the two in the claim. Claim 2 depends from itself. In claim 2 there is no proper antecedent basis for the "repair material". Correction of all errors, not just those specifically listed, is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Applicants Admitted Prior Art (AAPA). AAPA teaches all of the steps as claimed. See in particular page 3, line 7 through page 5, line 26. It is not clear how applicant believes his invention is different from the one described in this section of the application.
